Comments: (If possible, please reference section and/or page number in document if applicable.)

It is unfair for all the STATES in our
union to strap NEVADA with Their waste!
If you create the spent fuel than each State
should be required to dispose of that waste
in their own State. Why not store this
waste in the halls of Congress!!

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.
